Overview

Are you willing to witness the beauty of the [Everest Region](#), but restricted by time and physical strength? But no worries, now you don't need to take off much of the time from your busy schedule as one day will be enough to go, visit and return, and also no physical strength is needed. Book our Everest Helicopter Day Tour to explore Mount Everest.

Considering the shortage of time and your physical capacity, we have launched a special package where you can visit Everest Base Camp via helicopter. Abandoned by the roadways, the Heli tour is only the other option for trekking in this area. Without any doubt, trekking is an amazing experience but we can say that the Heli tour will be a much better option as you can explore more in lesser time.

Our Everest helicopter day tour starts from Kathmandu, you can enjoy the views all the way to the Everest region during the initial phase. As we reach nearer the Everest Region, the view of the portraits of the Himalayas, tranquil green valleys, and glittering snow peaks will begin to appear bigger and you

can get them just near to your eyesight.

Apart from having the breathtaking views, we will be landing at the [Everest Base Camp](#) for around 10 to 15 minutes where you can click some photos and have some more satisfying glances at Mount Everest and the peaks around. And after 10-15 minutes, we will again fly to the [Everest View Hotel](#) at Syangboche where you can have breakfast. And for your reminder, the hotel has been recorded as the hotel situated at the highest point.
