Overview

Mount Kailash Trek via Dzhangmu tour is a spiritual journey to an ancient land that was once believed to be inhabited by the Hindu and Buddhist deities. Mt Kailash, the colossal snow giant is one of the main highlights of the Mt Kailash via Dzhangmu program as a peak is visible throughout the trail.

This trip does not demand much physical because we only walk for about three days during the whole journey. The rest of our journey is in a drive across the beautiful Tibetan landscape, which is nearly impossible to cross on foot. Tibet is thought of as a forbidden land by outsiders and we plan on changing their perception by taking them across this beautiful neighboring country of ours. Mount Kailash trip via Dzhangmu is strenuous regarding altitude sickness. Be prepared or think to go via this route to Kailash. It could be altitude problems because your first night will be about 2,500m higher than Kathmandu elevation. Of course, the Tibet tour via Dzhangmu is shorter than other itineraries. No risk no fun? It is also an alternative route to get Kailash or Tibet. Those people who used to follow this itinerary as an alternative route will lose their time in Nepalgunj due to flight hassles because of bad weather. This is not sensed that no one could do the trip to Tibet via Dzhangmu. It would be much better to prepare physically and mentally before starting this trip.

If you are confident with your hiking experiences over the Himalayas Vs altitude sickness you can do this trip easily with our proper acclimatize itinerary. You can also minimize this itinerary if you do not have

more time to explore your holiday. Since 95 percent of the road is blacktopped and you can drive around Manasarovar within a day too. We want to add here that, you can do this tour as tea houses if you are not required standard food and accommodation. There are all-around guesthouses and tea shops but most lodges or guest houses provide you either Chinese or Tibetan food.
